

Integrating highly skilled refugees via Horizon 2020 science4Refugees initiative

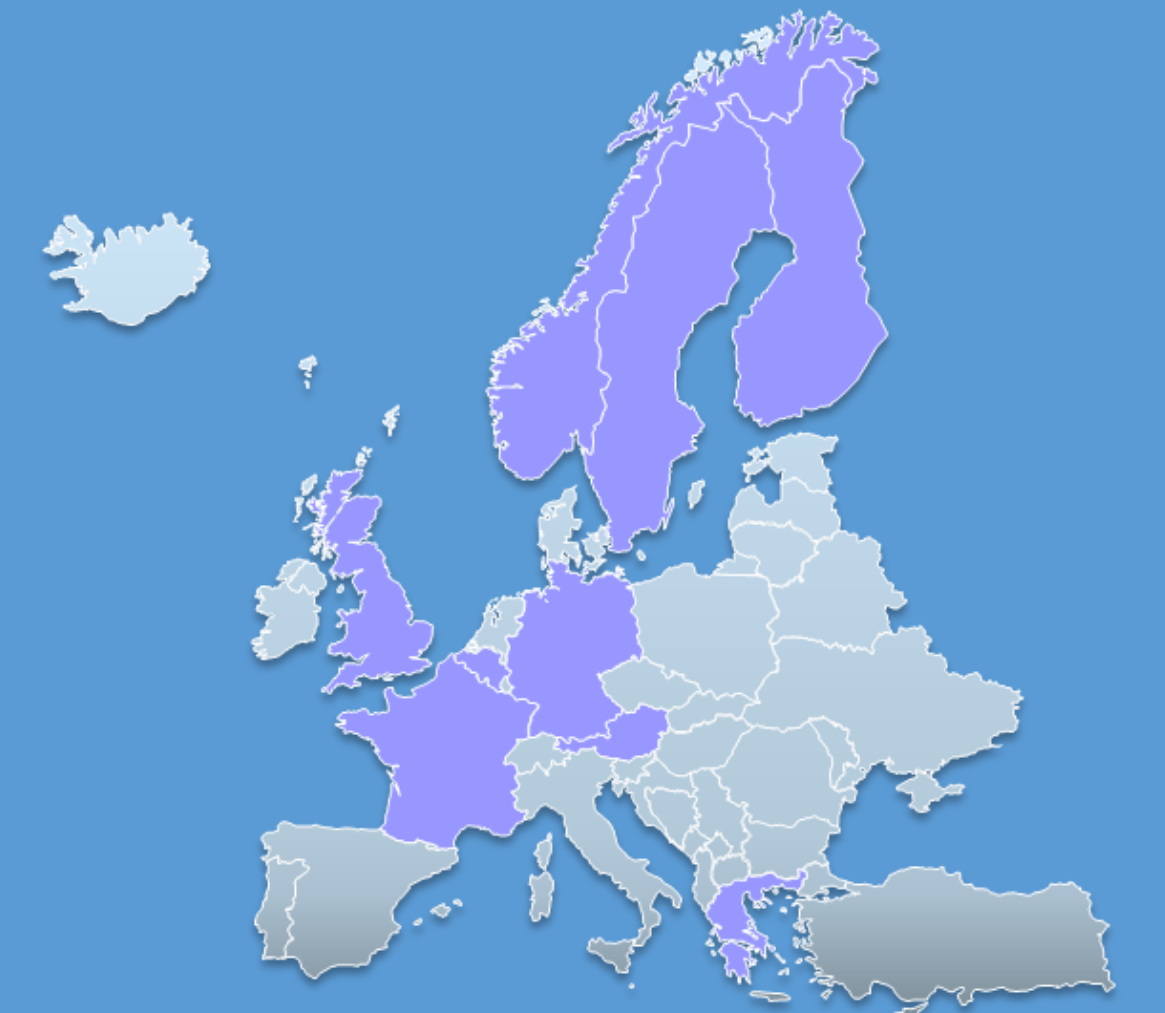

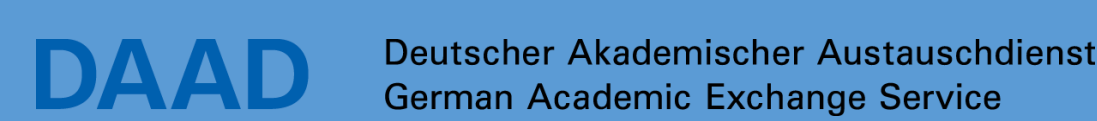

Career Advancement for Refugee Researchers in Europe - CARE
January 2019 - October 2020

Guiding Refugee via European Exchange and Training - GREET
April 2018 – September 2019

Partners

Advisory board

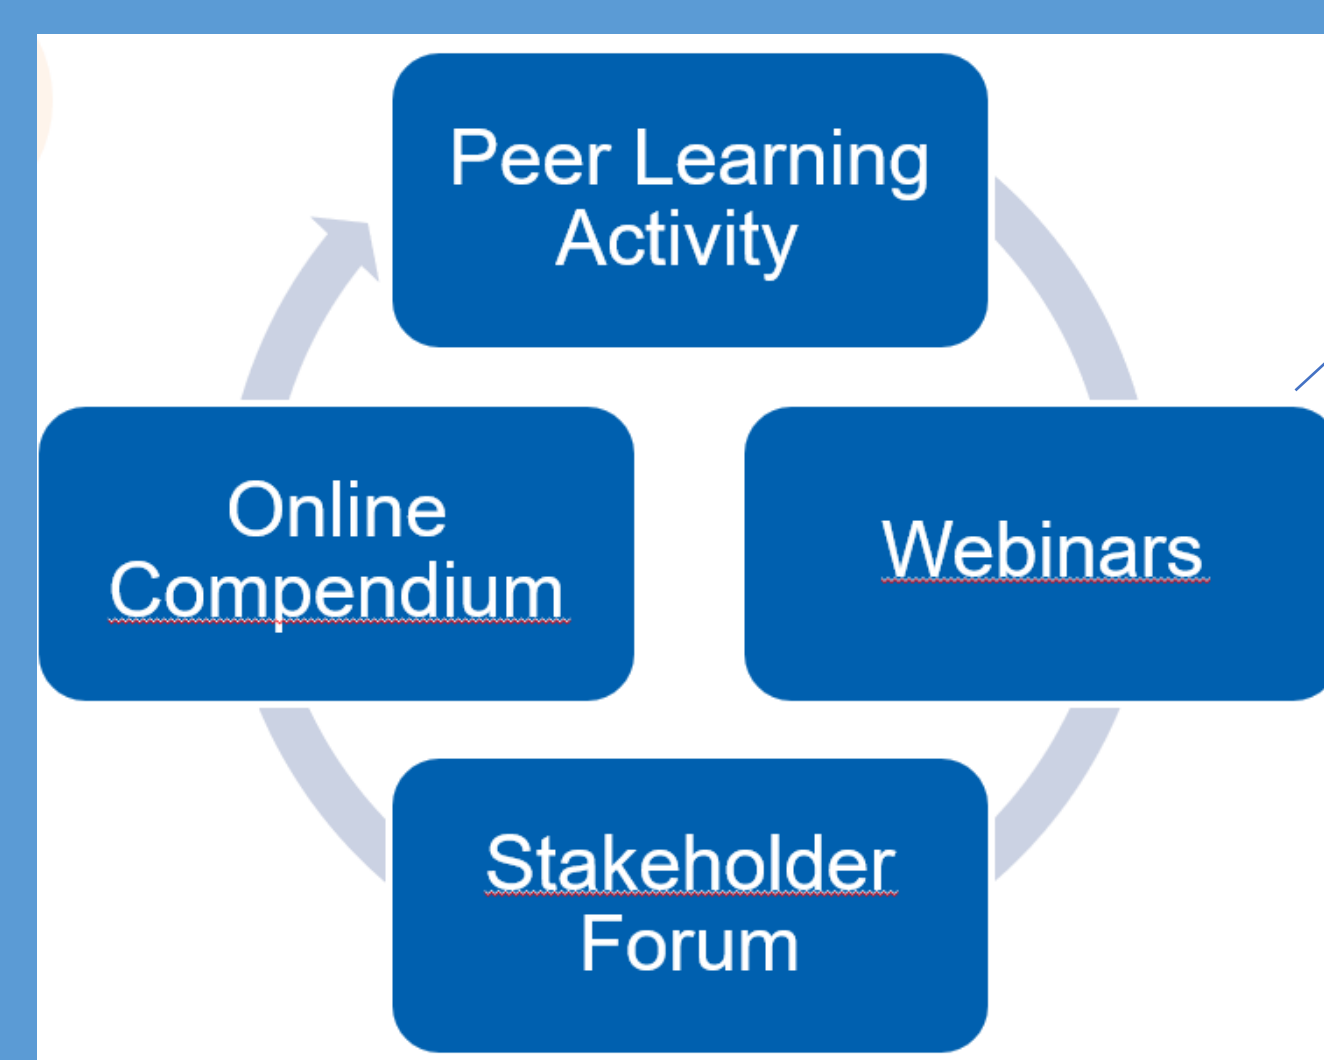

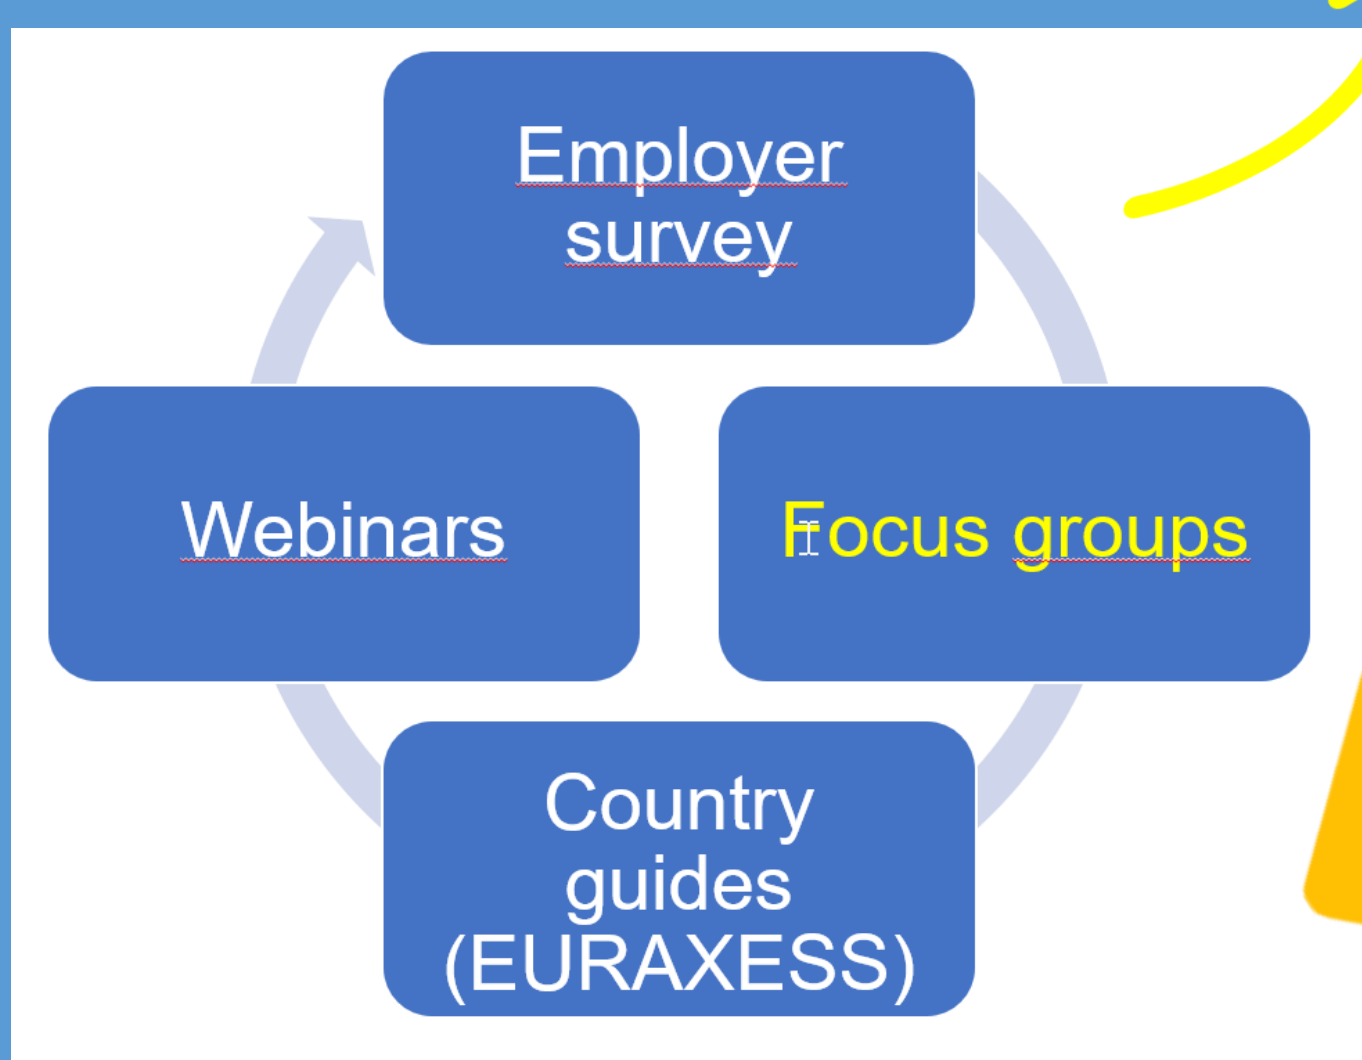

Support labour market integration of researchers with a refugee background through needs-based information provision and dissemination

Contribute to the integration of highly skilled refugees in European higher education through peer learning and exchange among national support structures and higher education institutions (HEIs).

ACTIVITIES AND RESULTS

Template for country guides

1. The role of European higher education community
2. Entering the job market – Cooperation with stakeholders
3. How to create sustainable career paths for scholars?

Relevance of networks for obtaining and sustaining support from decision makers

European framework for action: cooperation, exchange and info sharing

Ensure sustainability of fellowships through stronger cooperation among universities
